

Fire & Water Restoration Contractors

Issue: In 1984, the Insurance Services Office (ISO) revised the Commercial General Liability policy to exclude the escape, release or threatened release of pollutants because of the fear of too many severe environmental claims.

Those businesses that do not transfer that risk to a specialized environmental insurance policy are now self-insuring this real exposure.

AM Best Rated A- (Excellent), VIII

***(ADMITTED IN ARIZONA, NON-ADMITTED ALL OTHER STATES,
OTHER "A" RATED CARRIERS AVAILABLE TOO)***
